American Academy for Park and Recreation Administration

**2022 Finalists Announced for the National Gold Medal Awards
in Parks and Recreation Management**

Lacey, WA. (May 5, 2022) – The [American Academy for Park and Recreation Administration](#) (AAPRA), in partnership with the [National Recreation and Park Association](#) (NRPA), is pleased to announce the finalists for the 2022 National Gold Medal Awards for Excellence in Park and Recreation Management. Musco Lighting, LLC continues its 20+ years as the proud sponsor of the National Gold Medal Awards program.

Founded in 1965, the Gold Medal Awards program honors communities in the United States that demonstrate excellence in parks and recreation through long-range planning, resource management, volunteerism, environmental stewardship, program development, professional development and agency recognition. Applications are separated into seven classes, with five classes based on population, one class for armed forces recreation and one class, awarded on odd numbered years, for state park systems.

Agencies are judged on their ability to address the needs of those they serve through the collective energies of community members, staff and elected officials. Four finalists in each class are chosen to compete for grand honors each year.

In announcing the 2022 National Gold Medal Finalists, AAPRA Executive Director Jane H. Adams shared, “Each Finalist is commended for receiving this prestigious award. We know local communities and military installations worldwide continue to meet the demands of delivering services during the COVID 19 pandemic which includes increased visitations at trails, parks, playgrounds, and greenways. Park visitors and program participants rely upon their service provider for physical, mental, and emotional support during this continuing pandemic. The Academy congratulates each Finalist for their management excellence during this unprecedented time.”
